LOVE AT FIRST BLOOM!

QTY	ITEM	DESCRIPTION
1	96549	36" Red Rose
6	80235	Std. Red Heart
1	18552	Reflex Key Lime Twistees (12 needed)
1	18551	Reflex Crystal Red Twistees (4 needed)
1	5551	5" Reflex Crystal Red (1 needed)
1	1537	80" Air-Fill Balloon Display Tower
1	721093	Balloon Bond Adhesive

#1537
Assemble the display tower. Fill the base with water to provide stability. Extend the pole 3-4'.

#18552
STEMS - Air inflate six Key Lime 260s. Leave 4"-6" uninflated.

LEAVES - Inflate each 260, leaving 8"-10" uninflated and tie off. Starting from the neck, twist a 9" section. Bend the section in half and tie the tip into the twist to make a loop (leaf). Repeat this step two more times to make a total of three leaves. Make leaves for each stem from the previous step.

#80235
Air-inflate six red foil balloons. Roll the neck of each balloon around the uninflated portion of each stem like a scroll. Tie the 260 to secure each stem to the balloon. Slip a three leaf cluster onto the bottom of each red heart and use the uninflated end of the stem to secure them to the foil balloon.

#18551/#5551
Air-inflate two red 260s leaving 8" uninflated. Tie the necks together. Make a twist 18" from the knot, fold the each 260 back on itself and twist them into the knot to create the loops of the bow. Adjust the remaining length of each 260 to create the tails of the bow. Tie a knot where the uninflated section begins and trim off the excess.

Continued on other side.

LOVE AT FIRST BLOOM!

Idea KITCHEN

#18551/#5551 *(continued)*
Inflate a 5" red balloon to the size of a tennis ball and tie off. Grip the balloon with both hands and twist the center of the balloon to hide the knot in the twist. The balloon should now have two equal size round segments. Slip the balloon into the center of the 260 bow.

Air-inflate another red 260 leaving 1" uninflated. Gather the six heart roses around the pole of the balloon tower. Wrap the red 260 around the roses twice and tie the neck and tail together to secure them to the pole.

Attach the bow to the red 260 holding the stems using an uninflated red 260.

#96549
Air-inflate the rose balloon. Slide the tail through one of the holes on the balloon cup that came with the tower and secure it with clear tape. Slip the cup onto the balloon tower, adjust the height so the balloon nests neatly into the other heart roses. Use balloon bond to secure the smaller heart roses to the large rose balloon.
