Air inflate two latex balloons to 11" and tie together to form a duplet. Repeat to create a second duplet. Twist the two duplets together to create a four-balloon cluster. Create a second cluster, inflating the balloons to 9". Tie a heavy weight to a uninflated 260, nest clusters together, wrap 260 around the clusters to hold them together and tie off.

Air inflate the balloon. Roll the neck of the balloon around the middle of an uninflated 260 like a scroll. Tie the 260 to secure it to the balloon then use the loose ends to tie the foil balloon on the top of the latex clusters. Attach an adhesive tab to the flap on the top of the candy cane.
