1	18203	260 QPak Red Twistees (2 needed)
-	-	Coordinating Curling Ribbon

#1537

Assemble the Balloon Display Tower. Fill the base with water to provide stability. Extend the pole four feet.

#93129 - Primary Balloon

Air inflate the foil balloon. Slide the tail through one of the holes in the balloon cup and secure it with clear tape. Slip an uninflated red 260 through the two remaining holes in the cup. Set aside.

#5123 - 5" Latex Collar

Air inflate two 5" red latex balloons and tie together to form a duplet. Repeat to create a second duplet in pink. Twist the two duplets together to create a four-balloon cluster. Create a second cluster. Twist the two clusters together to form the double collar. Slip the collar onto the pole. Attach the foil balloon to the top of the tower and nest the double collar snugly under it. Slip the uninflated 260 through the double collar and tie it.

#5123 / #11126

Create a double collar for the base. Air inflate one cluster using 5" latex and the other using 11" latex. Slip the collar around the pole to cover the base.

#93603 - Love Script

Air inflate the accent balloon and tie it into the upper collar. Adjust the height of the pole and tie the other end of the accent balloon to the 5" cluster at the base of the tower.

#310027 - Red Ribbon

Wrap the pole with red ribbon securing it at the top and bottom with tape.
