

Super Hero

#4239 . . .

Air inflate and adhere an adhesive tab to the feet. Position on completed column. Tie uninflated 160 onto tab and into completed column. Secure hands with Balloon Bond.

#86031
#86347
#86153 . . .

Air inflate and adhere an adhesive tab to the side of the foil balloon, creating a connection point. Tie an uninflated 160 onto the tab and into completed column.

#18160 . . .

Curly 160: Fully inflate then deflate. Tightly wrap 160 around a cylindrical object approximately 1½" in diameter. Fully air inflate again and knot. Tie into column using an uninflated 160.

Tip: To cover any rough or sharp edges on the pole top, cover it by sliding an uninflated 16" over the top before adding clusters.

#11241

Fully air inflate to 16", create a five-balloon cluster. Twist onto top of pole.

#11123
#11124

Air inflate to 10", create 4 four-balloon clusters in red and yellow.

MATERIALS

QTY	ITEM	SIZE	DESCRIPTION
1	4239	36"	Spider-man AirWalker®
1	86031	Std.	Superman
1	86347	Std.	Batman Comics
1	86153	Std.	Wonder Woman
1	16121	16"	Dark Blue Latex (9-10 needed)
1	11123	11"	Red Latex (16 needed)
1	11124	11"	Yellow Latex (12 needed)
1	18160	160	Traditional Assortment (approx.19 needed)
1	1742		Balloon Sizer Box
1	3554		Adhesive Tabs (6 needed)
1	721093		Balloon Bond
1	1574		Steel Base Plate
1	-		Conduit Pole (1/2" inside diameter) Available at hardware stores

Build Column: Working from the base up the pole, add clusters as shown. Twist two balloons of each cluster around the pole to secure. Rotate clusters 45° so the balloons are packed tightly. Tie standard foils into column. Add curly 160s last.

Creative Option: Create more "Wow" with customized signs. Tie into completed column with adhesive tabs and uninflated 160s.
