

Upgraded Balloon

Collar & Curls

Primary Balloon

Helium inflate the primary balloon, tie with ribbon and attach weight.

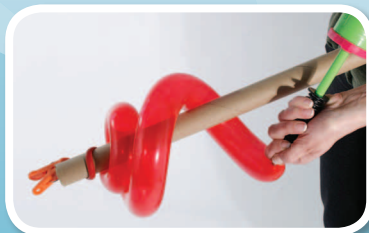

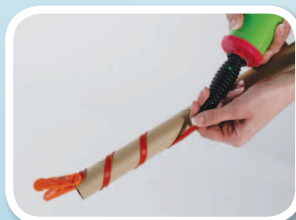

5" Latex Balloons

Air inflate two 5" balloons and tie together to form a duplet. Repeat to create a second duplet. Twist the two duplets together to create a four-balloon cluster. Place the cluster under the helium filled balloon and twist two balloons around each other. Push up on the cluster to secure it as closely to the bottom of the balloon as possible.

260 Balloons

Fully air inflate a 260, then release all the air.

Tightly wrap the 260 around a cylindrical object (such as a cello wrap or wrapping paper roll). Secure the tip of the 260 balloon to the top of the cylinder using a clip (a Clip-N-Weight® works great for this). The tighter the balloon is wrapped, the smaller and tighter the spiral will be. Fully air inflate the 260, slip it off the cylinder and tie. Repeat to create a second curl (depending on the balloon, you can add up to 3 curls if desired). Tie all the curls together to form a cluster. Place this cluster over the 5" cluster and pull down in between the balloons so the curls are locked in place under the balloon as shown.

QTY	DESCRIPTION
1	Any Geometric or Bubble™
4	Any color 5" Latex Balloons
2-3	Any color 260 Latex Balloons
1	Any color Curling Ribbon
1	Heavy Weight
1	Hand Pump
	Balloon Shine™

Increase the shelf life of latex balloons by always treating with Balloon Shine™.

WARNING:
CHOKING HAZARD

Children under 8 years can choke or suffocate on uninflated or broken balloons. Adult supervision required. Keep uninflated balloons from children. Discard broken balloons at once.
