Foil Shape Balloon
 Air inflate the foil balloon. Roll the foil tail tightly around the middle of an uninflated 260. Tie the 260 in a knot to secure it to the balloon.

Latex Base
 Fully air inflate two 11" balloons and tie them together to form a duplet. Repeat to create a second duplet. Twist the two duplets together to create a four-balloon cluster. Repeat to create a second cluster inflated to 7". Nest the clusters together and tie an uninflated 260 around them to connect them together.

Create an additional cluster using the 5" latex balloons. Nest everything together including the foil shape. Wrap the uninflated 260 from the bottom of the foil shape around everything and tie to secure the base to the top.
