### Primary Balloon

Inflate the jumbo foil balloon, tie with curling ribbon and attach weight.

### Accent Balloon

Air inflate the accent balloon and tie to the neck of the primary balloon. Tie the other end of the accent balloon to the weight.

### 5" Latex Collar & Base

Air inflate two 5" balloons and tie them together to form a duplet. Repeat to create a second duplet. Twist the two duplets together to create a four-balloon cluster. Place the cluster under the helium filled balloon and twist the balloons around the tail. Push up on the cluster to secure it as closely to the bottom of the balloon as possible. Create another cluster inflated to a smaller size and nest below the first cluster as shown.

Air inflate two more clusters and add to the bottom of the ribbon just above the weight.
