

TWISTEE STAR

Build Time 3 minutes

QTY	ITEM	DESCRIPTION
1	91200	33" Birthday Cake Confetti
1	18311	260 Chrome Copper Twistee (1 needed)
-	-	Coordinating Curling Ribbon
1	-	Heavy Weight

#91200

Helium inflate the primary balloon, tie with curling ribbon and attach weight.

When using air to inflate the primary balloon, omit the heavy weight and tie the curling ribbon to the hang tab on the top of the balloon.

Twistee Star

Fully air inflate a 260. Tie the ends together to make a ring. Squeeze the ring in half, making sure the knot is in the middle. Twist the balloon to form a figure 8. Squeeze the ends of the figure 8 into the center (see image below). Twist everything together in the center to create the four smaller loops of the star.

Place the star under the helium filled balloon and wrap the curling ribbon around it to secure.

WARNING: Children under 8 years can choke or suffocate on uninflated or broken balloons. Adult supervision required. Keep uninflated balloons from children. Discard broken balloons at once.
