

# Upgraded Balloon

## Bird's Nest Collar

### Primary Balloon

Helium inflate the primary balloon, tie with ribbon and attach weight.

### 260 Balloons

Fully air inflate a 260 balloon, then release a tiny bit of air to make the balloon more pliable. Tie the ends of the balloon together to create a ring. Repeat two more times for a total of three rings.

Twist the rings in half, making sure the knot rests in the middle, to create a figure 8. Repeat with the other two rings. Twist all three figure 8s together at the twist, creating a six-loop cluster. Place this cluster under the helium filled balloon and twist two balloons around each other to secure it as closely to the bottom of the balloon as possible.

QTY	DESCRIPTION
1	Any Geometric or Bubble™
3	Any color 260 Latex Balloons
1	Any color Curling Ribbon
1	Heavy Weight
1	Hand Pump
	Balloon Shine™

Increase the shelf life of latex balloons by always treating with Balloon Shine™.

**WARNING:**  
**CHOKING HAZARD**

Children under 8 years can choke or suffocate on uninflated or broken balloons. Adult supervision required. Keep uninflated balloons from children. Discard broken balloons at once.
