Store Made Gifts

Small Candy Bouquet

Colors

Plan your candy bouquet first. Choose coordinating balloon, bows, tulle, shred and candy.

Filler

Place candy in bottom of jar. Fill remaining space with shred.

Tulle

Cut five 6" squares of tulle. Stack them together (rotate each piece slightly so the corners do not overlap). Center tulle over mouth of jar, place the lid over the tulle and screw on the ring.

Candy Connector

Use the candy box dot to attach the candy connector to the center of the lid.

Bow

Staple the bow backing cards together to form a tunnel for the candy connector; then fluff the bows. Slide onto the connector.

Balloon

Slide the mini balloon onto the candy connector and push down to secure.

Supplies from Balloons Everywhere
