Hang Tabs

Curling Ribbon

### #91943

Air inflate the standard balloon using the hand pump from kit #48520.

### #48520

Attach an adhesive hang tab to the top of the balloon. Cut a 6" segment of curling ribbon from one of the enclosed coils. Roll the tail of the balloon around the middle of the ribbon like a scroll. Tie a knot to secure it to the balloon. Tie the remaining length of the ribbon strand to the adhesive hang tab.

### QuickLinks™

Air inflate the 6" QuickLinks™ to the same size. Tie a knot in the necks. Tie the balloons together tip to neck to form the chain. Tie the chain to the bottom of the foil balloon using the small piece of curling ribbon. Trim off excess ribbon.

## MIX IT UP!

Use the chain as a replacement for the ribbon on the top of the balloon to hang it from the ceiling!
