## Latex Base

#11241 | #11125 | #5124

Fully air-inflate two 11" black latex balloons and tie them together to form a duplet. Repeat to create a second duplet. Twist the two duplets together to create a four-balloon cluster.

Repeat the step above to create a second four-balloon cluster using 11" orange latex balloons air-inflated to 6".

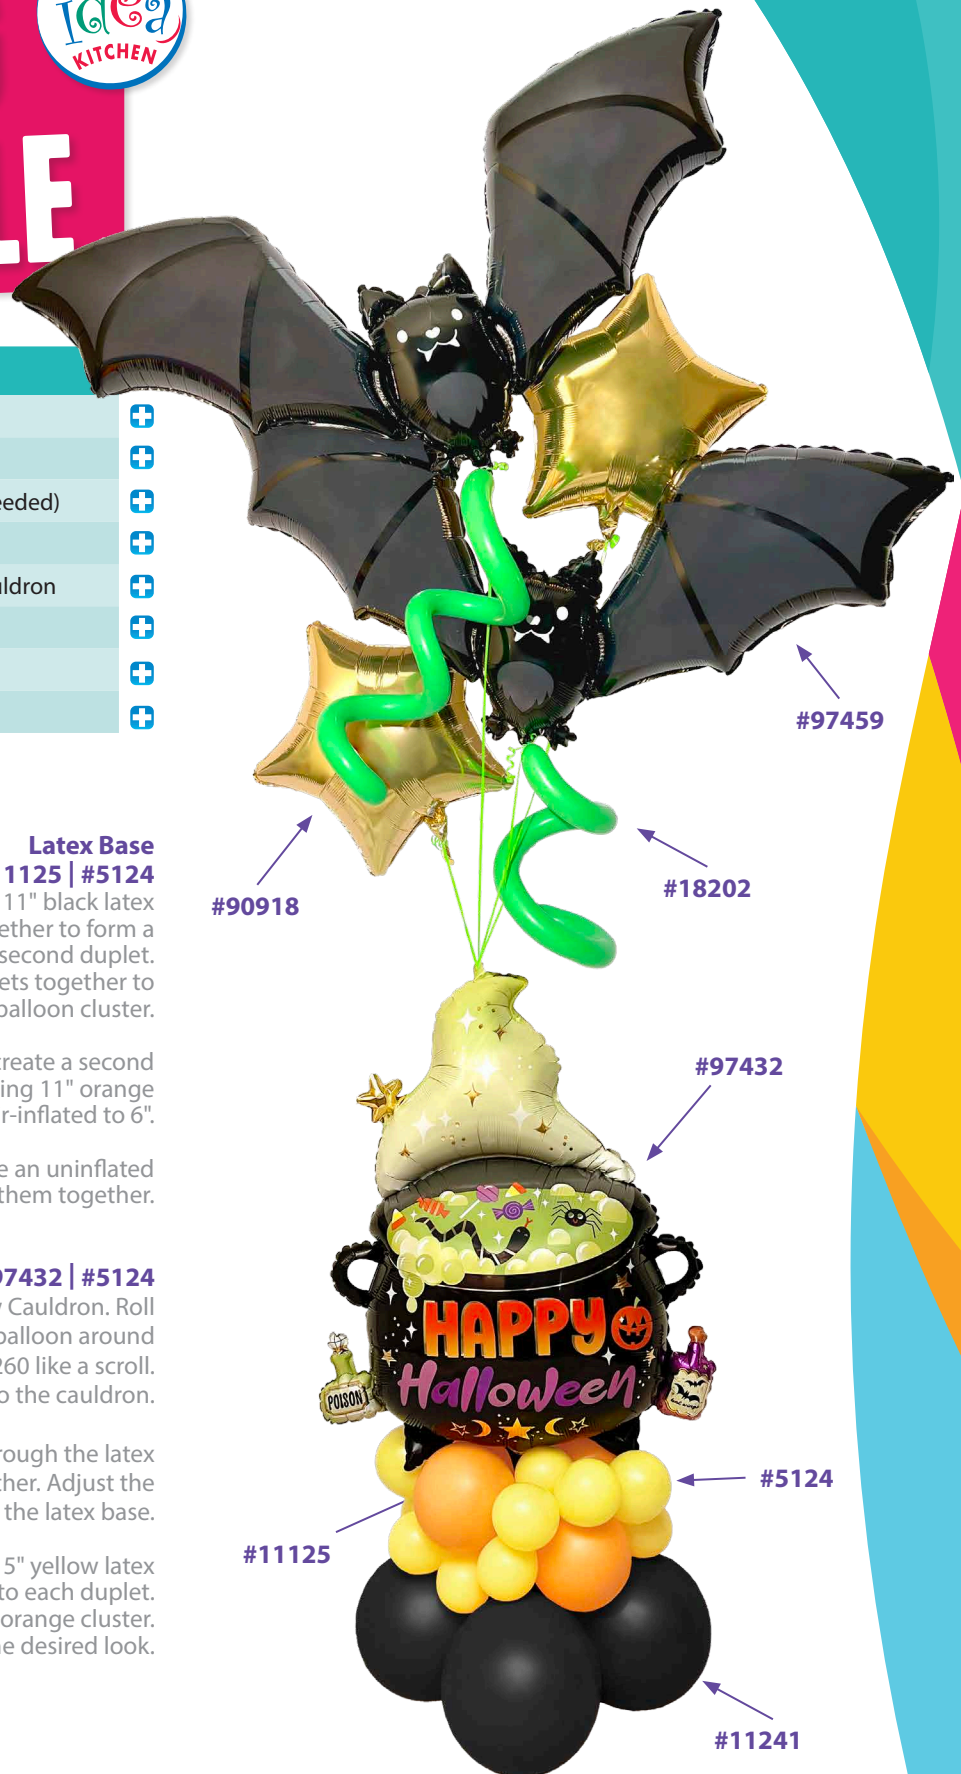

Nest the clusters together and tie an uninflated 260 around the clusters to secure them together.

#97432 | #5124

Air-inflate the Witch's Brew Cauldron. Roll the neck of the cauldron foil balloon around the middle of an uninflated 260 like a scroll. Tie the 260 to secure it to the cauldron.

Slip the ends of the 260 through the latex clusters and tie them together. Adjust the cauldron to nest in the latex base.

Create duplets with air-inflated 5" yellow latex balloons. Tie an uninflated 260 to each duplet. Nest and tie them among the orange cluster. Repeat as needed for the desired look.

## Bats & Stars

#97459 | #90918

Helium inflate the Batty Bat and star foil balloons. Add curling ribbon and tie them to the TopTab® on the top of the cauldron foil balloon.

## Twistee Curls

#18202

Create two 260 twistee curls. To do this, fully air inflate the twistee, then release all the air. Tightly wrap it around a cylindrical object. Secure the tip of the balloon to the top of the cylinder using a clip. Fully air-inflate, slip off the cylinder and tie. Use the curling ribbon to secure the twistee to the foil bat balloons.
