### Latex Cluster - #12504

Air inflate two 12" green latex balloons to 9" and tie together to form a duplet. Repeat to create a second duplet. Twist the two duplets together to create a four-balloon cluster.

### #97408

Air inflate the foil balloon. Roll the neck of the balloon around an uninflated 260 like a scroll. Tie the 260 to secure it to the balloon then use the loose ends to tie the foil balloon on to the top of the cluster.

### 260 Latex Curls - #18304

Fully air inflate and deflate a green 260s. Attach the tip of the 260 to a cylindrical object like a pipe or wrapping paper tube with a Clip-n-Weight™. Wrap the 260 smoothly around the tube making sure not to twist it. Re-inflate, slip it off the cylinder and tie. Create a second green curl. Tie both together at the neck. Slip them up through the balloon cluster. Adjust them until they are in the desired location.

### #5405

Air inflate and attach to the balloon cluster with balloon bond.

### #87120 / #87482 / #87448

### #12547 / #12526 / #11288

Helium inflate, add curling ribbon and tie the balloons to the hang tab of #97408.
