

CHRISTMAS PRESENT

QTY	ITEM	DESCRIPTION
1	-	7" Chrome Latex (9-14 needed)
1	18200	260 Chrome Twistees (4 needed)
1	720982	Balloon Shine™

Present

Air inflate two latex balloons to 7" and tie together to form a duplet. Repeat to create a second duplet. Twist the two duplets together to create a four-balloon cluster.

Create a second cluster. Place the second cluster on top of the first cluster as shown.

Inflate another latex balloon large enough to fill the gap between the two clusters. Tie that balloon to the center of the bottom cluster to hold it in place.

Ribbon

To make the ribbon around the present, air inflate two 260 balloons leaving a ½" tip on each balloon. Cross one 260 over the other and find where they meet in the middle. Twist them together where they meet to make a cross. Place the cross under the present. Pull each end of the 260 up around the present to meet in the middle of the top cluster and tie the four ends together.

Bow

Air inflate a 260 balloon to the desired length. Tie the ends of the balloon together to create a ring. Repeat to make another ring. Twist the rings in half, making sure the knot rests in the middle, to create a figure 8. Repeat with the other ring. Twist the two figure 8s together at the twist, creating a four-loop cluster. Place this cluster at the top of the present and tie into the 260 balloons that are wrapped around the present as shown.

To make your present taller, add another cluster of latex balloons.

Pair recipes to create a stunning display!
