

CURLS & CABERNET

QTY	ITEM	DESCRIPTION
1	97499	36" Valentine Will You Be Wine?
1	87694	Std. Valentine You're My Favorite (2 needed)
1	12503	11" Deco Black Latex (4 needed)
1	12551	11" HiGloss Gold Latex (8 needed)
1	5451	5" HiGloss Gold Latex (2 needed)
1	11547	11" Metallic Red (4 needed)
1	5147	5" Metallic Red (2 needed)
1	18307	260 Red Twistees (5 needed)
1	18255	260 HiGloss Gold Twistees (1 needed)
1	18261	260 Black Twistees (2 needed)
1	18280	260 Pink Twistees (1 needed)
1	1537	80" Air-Fill Balloon Display Tower
1	1159	Hot Red Curling Ribbon
1	721093	Balloon Bond Adhesive

#1537

Assemble the display tower. Fill the base with water to provide stability. Extend the pole 5'.

#12503 / #12551

Inflate two black latex balloons to 11" & tie together to form a duplet. Repeat to create a 2nd duplet. Twist the duplets together to create a four-balloon cluster. Repeat the steps above to create a second four-balloon cluster inflated to 7" using the gold latex. Nest the clusters together and tie an uninflated 260 around them to secure them together. Slip the clusters over the plastic base of the tower.

#18203 / 18215 / 18221 / 18222

Inflate one of each color twistee to the same length. Leave 2" of each uninflated. Tie them together at the necks to create a + shape. Slide the twistees under the black and gold clusters at the base of the pole. Pull each twistee up between the balloons.

Braid the entire length of two twistees together. Twist the ends together to keep the braid from unraveling. Repeat this step for the remaining twistees. **Be sure to braid them in the same direction.**

Wrap the 1st braid around the pole. The twistees should naturally spiral upwards. Repeat this step with the 2nd braid wrapping it into the open space left from the 1st braid. Twist the ends of each braid together to secure them to the pole.

Continued on the next page

CURLS & CABERNET

Cut the tips of the twistees, release the air from the twisted segments at the top & tie them together tightly to prevent deflation. Tape the loose ends to the pole to keep the braid from slipping down. There should be approximately 1' of bare pole left at the top.

#5451 / 5147
12551 / 11547

Create 3 clusters using the steps above. Alternate the colors using red and gold latex. Inflate the clusters to 5", 7" and 10". Wrap the clusters through the balloon pole right on top of the braided 260s. Work your way up from smallest to largest. Rotate and nest each cluster so the colors naturally spiral upward.

#97499

Air-inflate the foil balloon. Slide the tail through one of the holes in the balloon cup from #1537 & secure it with tape. Slip an uninflated twistee through the two remaining holes in the cup. Attach the balloon cup to the top and adjust the pole height until it is hidden inside the latex clusters.

#87694

Helium inflate the balloons and add curling ribbon. Slip the curling ribbon through the latex clusters to secure them in place. Add balloon bond and adhere the balloons to the wine bottle balloon.

#18260

Create 2 curled twistees and slip them into the red & gold clusters. To do this, fully air inflate a 260, then release all the air. Secure the tip of the 260 to the top of a cylindrical object using a clip. Tightly wrap the 260 around the cylinder. Fully air inflate, slip off the cylinder and tie.

WARNING:
CHOKING HAZARD

Children under 8 years can choke or suffocate on uninflated or broken balloons. Adult supervision required. Keep uninflated balloons from children. Discard broken balloons at once.
