1	5124	5" Yellow Latex Balloons (4 needed)
-	-	Coordinating Curling Ribbon
1	-	Heavy Weight

#91194

Inflate the primary balloon, tie with curling ribbon and attach weight.

When using air to inflate the primary balloon, omit the heavy weight. Instead attach a hang tab to the top of the balloon and hang it with curling ribbon or monofilament.

Double Collar - #5221 & #5124

Air inflate two 5" balloons and tie them together to form a duplet. Repeat to create a second duplet. Twist the two duplets together to create a four-balloon cluster. Repeat steps to create a second cluster inflated to 4". Nest the two clusters together and twist them around each other keeping the smaller cluster on the bottom. Place the double collar under the helium filled balloon and twist the balloons around the tail. Push up on the collars to secure them as closely to the bottom of the primary balloon as possible.

WARNING: Children under 8 years can choke or suffocate on uninflated or broken balloons. Adult supervision required. Keep uninflated balloons from children. Discard broken balloons at once.

Defy Gravity!

Save helium!

Fill the primary balloon with air. Hang it using an adhesive tab and curling ribbon. No weight needed!
