Primary Balloon

Inflate the primary balloon, tie with curling ribbon and attach weight.

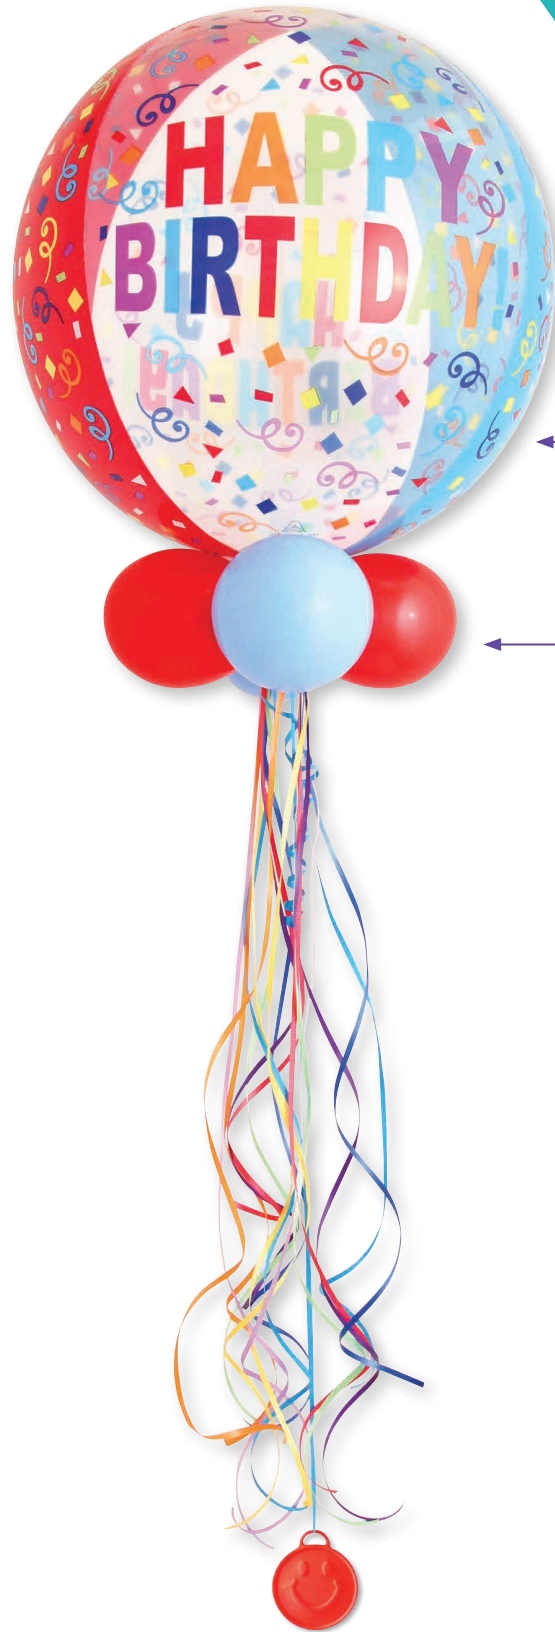

When using air to inflate the primary balloon, omit the heavy weight. Instead attach a hang tab to the top of the balloon and hang it with curling ribbon or monofilament.

5" Latex Collar

Air inflate two 5" balloons and tie them together to form a duplet. Repeat to create a second duplet. Twist the two duplets together to create a four-balloon cluster. Place the cluster under the helium filled balloon and twist the balloons around the tail. Push up on the cluster to secure it as closely to the bottom of the balloon as possible.

Curling Ribbon

Cut six colors of ribbon to 6' lengths. Bunch ribbon together and wrap through the balloon collar.
