## #87933

Air inflate the standard balloon using the hand pump from kit #48520.

## #48520

Attach a hang tab to the top of the balloon. Tie a coil of ribbon to the tab leaving 8" of extra at the end to curl with a pair of scissors. Cut a 6" length of ribbon from the loose end. Lay the ribbon across the tail of the balloon. Roll the tail over the ribbon like a scroll. Tie the loose ends of the ribbon into a tight knot.

## #6805 / #6819 / #6818

Air inflate two black, silver and gold 6" Quicklinks™ to the same size. Tie a knot in the necks. Tie the balloons together tip to neck to form the chain. Tie the chain to the bottom of the foil balloon using the small piece of curling ribbon. Trim off excess ribbon.
