

#96783

Helium inflate and attach an adhesive tab to feet area. Tie an uninflated 160 to the adhesive tab and into completed column.

#12804  
#12802

Helium inflate to 11" and tie neck-to-tip using a double knot.

**Build Quick Link™ Column:** Working from the base upward, connect the Quick Link™ above by tying neck-to-tip using a double knot. Insert latex collars last.

#5123  
#5121

**Latex Collar:**  
Air inflate to 3" and create 5 four-balloon clusters. Slip between knotted Quick Links™. Twist two 3" balloons around each other to secure.

#18160

**Curly 160:** Fully inflate then deflate. Tightly wrap 160 around a cylindrical object approximately 1½" in diameter. Fully air inflate again and knot. Tie into four-balloon cluster.

#90911

Tie neck of star to tip of Quick Link™.

#12804  
#5121

**Base:** Air inflate to 11" and tie knot end to a heavy weight. Slip 3" four-balloon cluster above weight and twist two balloons around each other to secure.
